

Did you know?

Hedgehog population has fallen by about two-thirds in the last 25 years.

Did you know?

Hedgehogs visit the allotment site.

A few of these hedgehogs have unfortunately been poisoned. Luckily, they were found and taken to a hedgehog rescue centre.

Hedgehogs eat slugs, snails, caterpillars, beetles, earthworms, birds' eggs; sometimes frogs, snakes and carrion.

To protect our hedgehogs please try not to use harmful garden chemicals.

(See the advice sheet)
